

For the Brews

1

If you are like me at all, five or ten years ago if anyone told me that I would experience the last few years in the way I did, I would have dismissed it. I might have even called you a ‘conspiracy theorist’. As a matter of fact there have been a few warnings that made me wonder just a little bit.

I am a movie buff. I enjoy relaxing with a good movie of most genres. After seeing “The Net”, “Enemy of the State”, “They Live”, “I am legend”, “V”, “The Terminator” series, “The Matrix” series and a few other contagion and zombie movies, I have finally begun to realize someone is trying to tell me something that is very important. Perhaps it is more a process of desensitizing than that of informing and maybe both effects have occurred.

Then, there is pop culture, current events and ‘THE NEWS’. Just listening to what a variety of public figures, officials and luminaries have to say, and watching what they do, one may get the sense that things are not as they seem. At the same time, a group of distinguished and trusted doctors and scientists who have been the foundation of the known published documentation regarding a variety of health issues have also come forward. These individuals attempted to provide warnings regarding everything from medicines including vaccines to 5G and they were *demonized*. Suddenly, they were no longer knowledgeable experts by a new definition, despite the existing body of work that already defined their expertise. Literary fact-checkers with no health or scientific credentials were able to effectively discredit these experts and deem their information invalid.

Even more shocking than being led by the uninformed was the mass acceptance or hypnosis that overcame the most of society. Despite numerous impassioned cautions, many individuals proceeded forward in lock-step to succumb to the insistent program of transformation and DNA modification. Those still standing and able to recognize what has occurred are left with regret, disgust, shock and perhaps some new health issues that they struggle to manage. You are among the fortunate because there are many that will not have to deal with the next phase of social reconstruction because they are no longer with us. You have survived the implementation of ‘AGENDA 21’.

Regardless of what your impression may be of what has occurred so far, ***this is only the beginning***. You are a target in this new version of social warfare that some are calling 5th generation battle where bombs and bullets are not the weapons of destruction. However, almost everything else is a weapon, beginning with the food, water, air, medicines, government, employment and all of society.

Agenda 2030 will be visibly obvious in the West as early as 2025. This is the year that has been earmarked for the ‘next pandemic’. Until recently, no one could predict or forecast an approaching pandemic. Obviously, if you have this ability, you are an agent of the occurrence. The people forecasting this event have an objective: To Eliminate ‘THE MAJORITY’ of the population. In 2022 there were eight billion people on Earth. The stated plan was to reduce that number by about 94% or 7.475 billion. Believe it or not [See [Georgia Guide Stones](#) – It was chiseled in stone!]. Now there is some understanding about social compliance. There is a sense that many will comply again despite warnings and evidence that it probably will be detrimental.

The U-S POPULATION IS a MAJOR TARGET!

For the Brews

2

The U-S **could** single-handedly block this threat easily, as the most powerful military and economy in the history of the world, if they had not been co-opted, compromised and BOUGHT: lock, stock and barrel. Perhaps a descendant of the enslaved must tell the masses so they will know. -

LET THE TRUTH BE TOLD...

IF YOU CAN BE BOUGHT,

YOU CAN BE SOLD!

Those in power do not mind making a small investment in a few sell-outs. They know they will get the money back. Bill Gates made a multi billion dollar investment in vaccines. Then he promoted their efficacy vigorously. When it became obvious the vaccines were more dangerous than the **disease** and the plot was a rouse, he sold his shares in the vaccines. He netted ten-fold his original investment after multiple injuries and deaths.

Don't be victimized further. Make preparations for 2025. What is coming *SHALL BE* much more **DIFFICULT** than what occurred from 2019 through 2023. It will be **MUCH WORSE!** If possible get out of the U-S. There is a lot of discussion and movement to Africa already. It may require some effort, but it is not as hard as you think. Many of us ARE NOT *Hamites*, but we are Africans. The *Shemites* were in Africa too! It is the last home we knew before being taken captive and our cousins are there. There is some natural distrust of *Westerners* by Africans. Our customs and culture are ***still different*** as they were when we left, but we are their SECRET WEAPON,...AND, they are OURS!

A new colonization is taking place all over Africa and we must help to stop it. Africa has everything that everyone wants and everything that everyone needs. Africa is the most self-sufficient continent on the planet. However, they need help developing what exists and we can play a major role assisting them to elevate Africa to its rightful status. There will be help for us also.

This is the final phase and conflict. Perhaps you read about it in scripture. Unfortunately, most of us do not understand the warnings and guidance we have had available all of our lives because '*the word*' has been scrambled by those who alter modify and control everything. ***Scripture is yours***. It was developed and passed down by your ancestors, but in the Trans-Atlantic Crossing and indoctrination we lost the keys to the language, but now you can get them back. There are wise scholars and teachers who have deciphered most of what we need to know in ENGLISH. There is ALL SORTS of TRANSITION INFO to help you.
